

ANNASTASSHIA R. AMES

DESIGNER | PROGRAMMER | EDUCATOR

As a web designer I developed an identity for clean design and coding practices. As a former educator, I integrate this knowledge into my everyday workflow, swiftly standing out as, not only as a leader in quality, but as a mentor to my colleagues that resulted in 3 promotions. I am seeking greater opportunities to combine my technical and design expertise and grow as a professional.

WORK EXPERIENCE

TSI / SENIOR WEBSITE DESIGNER - MANAGER

Management of a web design team conducting front-end web development with programming languages such as HTML, CSS, and JavaScript. Designing visual imagery for websites and online ads inline with client branding.

- Promoted to Senior Web Designer after 6 months
- Promoted to Team Lead after 18 months
- Promoted to Manager after 11 months
- Ensure a level of design excellence by maintaining a high bar for quality, teamwork, and attention to detail.
- Drive initiatives by demonstrating design processes and provide research driven metrics.
- Interdepartmental training of web development skills and construction of instructional media

CMS & MCS / EDUCATOR

Constructing STEM, PBL, and standard-based instructional design in an empowering environment serving diverse backgrounds and learning needs.

Leading staff professional development training: instructional software, digital security, & website development.

- Demonstrated leadership & community advocacy as PTA Secretary, STEM committee member, Real School Gardens Lead, and Computer Programing Club facilitator teaching students to learn how to program video games.

RA REZZELE / DOCUMENT DATABASE CONTROL

Create a computer-based filing system and input engineering blueprints and documents into database while assisting engineers in locating pertinent files.
